Flag: Follow up

Christine,

They actually provided the final version recently (November 15). I've attached the final version. If you'd still like to have the draft version I can provide it.

They've provided some further additional information that includes things like baseline data and additional responses to comments. Feel free to call me to discuss further.

Subject: [Non-DoD Source] Question about MVP Responses

Hi Adam,

Hope things are well and you get some time off this week with the family.

We are going through Attachment 6 - Table of Responses to Comments PDF. In one of the responses to EPA comments it says this

"A draft of the Mitigation Framework was provided to the agencies on September 20, 2021, for review and feedback. Mountain Valley intends to promptly address any comments from the agencies on the draft document so that a finalized Mitigation Framework may be submitted to the agencies and incorporated into their respective application review and permit decision processes."

Do you have this document and can you share it with us?

Thank you! I hope you have a wonderful and relaxing Thanksgiving!

Christine
